

GEOSENTRI USER EVALUATION QUESTIONNAIRE

Mobile Application — Police Personnel

GeoSentri: An IoT-Based Real-Time GPS Monitoring System for Police Personnel

Respondent Code/Name (Optional):	Date:
Respondent Role: Police Personnel	Experience Using GeoSentri:

Evaluation Objective

Evaluate the GeoSentri mobile application in terms of Functional Suitability, Usability, Reliability, Performance Efficiency, and Security based on ISO/IEC 25010:2011.

Instructions

This questionnaire is intended only for Police Personnel. After using GeoSentri, check one box that best represents your level of agreement with each statement. Answer all items based on your actual experience. Each of the five quality criteria contains eight statements, for a total of 40 statements.

5	4	3	2	1
Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree

A. FUNCTIONAL SUITABILITY

Coverage: Functional Completeness (FCO), Functional Correctness (FCR), and Functional Appropriateness (FAP)

NO.	STATEMENTS	LEVEL OF AGREEMENT				
		5	4	3	2	1
1	The mobile application provides the functions needed to view my current deployment, assigned tasks, and duty status. (FCO)	☐	☐	☐	☐	☐
2	The mobile application provides the functions needed for location updating, backup requests, notifications, and report submission. (FCO)	☐	☐	☐	☐	☐
3	The mobile application provides access to submitted-report history and account functions needed during duty. (FCO)	☐	☐	☐	☐	☐
4	Deployment, task, and schedule details displayed in the application match my assigned duty information. (FCR)	☐	☐	☐	☐	☐
5	The application displays the correct latest GPS status and location information received for my account. (FCR)	☐	☐	☐	☐	☐
6	Notifications and report history display the correct event, status, and related record. (FCR)	☐	☐	☐	☐	☐
7	The map, task, and notification functions help me understand and perform my assigned duties effectively. (FAP)	☐	☐	☐	☐	☐
8	The backup-request and reporting functions help me request assistance and document incidents effectively. (FAP)	☐	☐	☐	☐	☐

B. USABILITY

Coverage: Learnability (L), Operability (O), User Error Protection (UEP), and User Interface Aesthetics (UIA)

NO.	STATEMENTS	LEVEL OF AGREEMENT				
		5	4	3	2	1
1	The sign-in and verification-code process is easy to learn. (L)	☐	☐	☐	☐	☐
2	The purpose of the Map, Tasks, Reports, and Account screens is easy to understand. (L)	☐	☐	☐	☐	☐
3	I can move between the main screens without difficulty. (O)	☐	☐	☐	☐	☐
4	Buttons, filters, forms, and map controls are easy to operate. (O)	☐	☐	☐	☐	☐
5	Validation messages clearly explain missing or incorrect information. (UEP)	☐	☐	☐	☐	☐
6	Confirmations, saved drafts, and retry options help prevent lost, accidental, or duplicate actions. (UEP)	☐	☐	☐	☐	☐
7	Text, labels, buttons, and status information are easy to read. (UIA)	☐	☐	☐	☐	☐
8	Colors, icons, spacing, and screen layouts provide a consistent and professional appearance. (UIA)	☐	☐	☐	☐	☐

C. RELIABILITY

Coverage: Availability (AV), Fault Tolerance (FT), and Recoverability (RC)

NO.	STATEMENTS	LEVEL OF AGREEMENT				
		5	4	3	2	1
1	The mobile application is accessible and ready during normal duty operations. (AV)	☐	☐	☐	☐	☐
2	My assigned deployments, tasks, and submitted-report history are available when needed. (AV)	☐	☐	☐	☐	☐
3	GPS updates, notifications, backup requests, and reporting functions work consistently during normal use. (AV)	☐	☐	☐	☐	☐
4	The application provides clear and safe behavior when the internet or mobile signal is temporarily unavailable. (FT)	☐	☐	☐	☐	☐
5	Previously viewed tasks and submitted reports remain available when temporary connectivity problems occur. (FT)	☐	☐	☐	☐	☐

NO.	STATEMENTS	LEVEL OF AGREEMENT				
		5	4	3	2	1
6	The application avoids unnecessary duplicate report submissions when offline synchronization is retried. (FT)	☐	☐	☐	☐	☐
7	The application returns to normal operation after internet connectivity is restored. (RC)	☐	☐	☐	☐	☐
8	Pending reports or saved report drafts can be recovered and synchronized after connectivity returns. (RC)	☐	☐	☐	☐	☐

D. PERFORMANCE EFFICIENCY

Coverage: Time Behavior (TB), Resource Utilization (RU), and Capacity (C)

NO.	STATEMENTS	LEVEL OF AGREEMENT				
		5	4	3	2	1
1	Mobile screens load within an acceptable amount of time. (TB)	☐	☐	☐	☐	☐
2	Sign-in, search, filtering, backup-request, and report-submission actions respond promptly. (TB)	☐	☐	☐	☐	☐
3	New notifications and GPS information appear soon after the related data are received. (TB)	☐	☐	☐	☐	☐
4	The application operates without causing noticeable device slowdown during normal use. (RU)	☐	☐	☐	☐	☐
5	Map movement, scrolling, card expansion, and screen transitions operate smoothly. (RU)	☐	☐	☐	☐	☐
6	The application performs ordinary tasks without unnecessary repeated loading or excessive resource use. (RU)	☐	☐	☐	☐	☐
7	The application remains responsive while displaying multiple map markers, tasks, reports, or notifications. (C)	☐	☐	☐	☐	☐
8	The application remains responsive during repeated normal operations throughout a duty period. (C)	☐	☐	☐	☐	☐

E. SECURITY

Coverage: Confidentiality (CF), Integrity (IN), Accountability (AC), and Authenticity (AU)

NO.	STATEMENTS	LEVEL OF AGREEMENT				
		5	4	3	2	1
1	The application limits personnel, location, and operational information to an authenticated account. (CF)	☐	☐	☐	☐	☐

NO.	STATEMENTS	LEVEL OF AGREEMENT				
		5	4	3	2	1
2	I can access only the information and functions permitted for my police-personnel role. (CF)	☐	☐	☐	☐	☐
3	Input validation and confirmations help prevent invalid or accidental changes to important information. (IN)	☐	☐	☐	☐	☐
4	Submitted reports, evidence, and report history remain complete and accurate after submission or correction. (IN)	☐	☐	☐	☐	☐
5	My submitted reports, backup requests, and important actions are associated with my authenticated account. (AC)	☐	☐	☐	☐	☐
6	Notifications and history information provide the related event, time, and status needed to trace important actions. (AC)	☐	☐	☐	☐	☐
7	The Login ID, password, and verification-code process helps confirm that only the authorized user can sign in. (AU)	☐	☐	☐	☐	☐
8	Logout and session controls prevent continued access after I sign out or when my session expires. (AU)	☐	☐	☐	☐	☐
